We should stop homelessness. There are people out there looking for a job, but they can't find one. We should be helping the homelessness by getting them a job so they can support their family. Kids are out there suffering without food, water and clothes. And they don't have a home. We have the voice to stand up and say that we should stop homelessness.

PUSH
People United to Stop Homelessness

Stop homelessness by helping them get a job, or by giving them money. We should stand in the streets, and say, "We should help the homelessness people."

HELP THE HOMELESS

Just take a simple step to stop homelessness. Call:

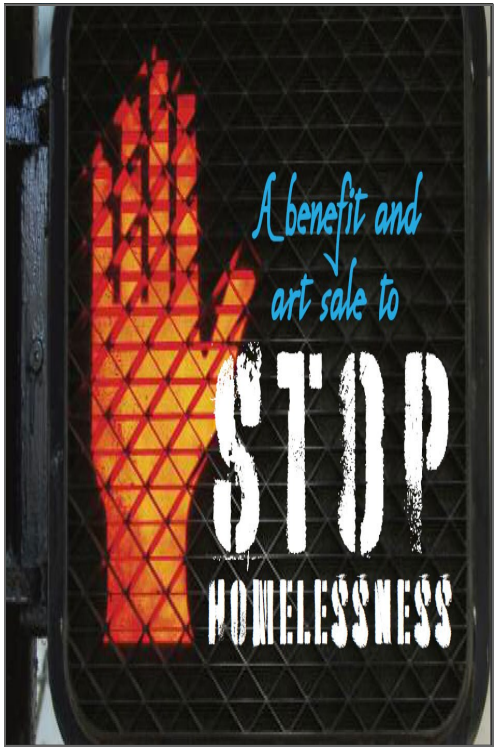
555-555-5555

What is homelessness?

Homelessness is when you live on the streets without money and few clothes. People that are homeless are often unable to acquire regular safety and security. People that are on the streets beg for money.

What causes homelessness?

Lack of employment, family problems, medical problems, drugs/alcohol, jail, and other reasons. Homelessness is caused by not having money to pay the bills.

How do we stop homelessness?


We stop homelessness by helping them get a job, or doing campaigns to raise money to get them off the streets.
