

Immigration (Facebook)

“The Senate Judiciary Committee is marking up the Gang of 8 immigration bill again today! CALL members of the Judiciary Committee today and ask them to pass immigration reform with citizenship.”

“This is what happens when you & the non-thinking Liberals promise to give free education and citizenship to all. Why would Mom & Dad attempt crossing, when they know you will take the children in, educate, and feed & Cloth then make them citizens? Mom & Dad then can just walk across the border with paperwork in hand.”

"Immigration is a part of all of our stories - Whether they arrived on the Mayflower or on a slave ship, whether they came through Ellis Island or crossed the Rio Grande @President Barack Obama, 2013.”

“Mexicans work for what they got. They DO NOT get food stamps or Medicaid. They work more hours for less pay than any other race. Oh yea, and they aren't the ones owning a business over here and still trying to blow us up. People, get your head out of your butt and realize that Mexicans are the ones that supply US with what we need. They are the ones in the fields getting our food, they are the ones mowing our grass, and they are the ones that work hard for their money. AND THEY DO NOT BOMB US!”

“I don't believe that any immigrant legal or illegal should get any welfare from this country until they have they citizenship and have worked and paid taxes for at least two years they are no more entitled to anything that this country has to offer than the natural born citizens is.”

“You think it's good to deport people. Well, it isn't. How would you like it if they deported you and separated you from your family?”

“To all those deported mothers, I wish soon they will come back to their family for good!”

“They just passed the amendment for when a person gets picked up, they have to find out if they have families here and if they do, they can't break up the families. They have to look for their families no matter how long it takes to find them. YES! And if you are here with no families, then you go back home.”

“The Hispanics are no different than us Americans, only in their color, and they are harder workers than the American people.”

“Wow, touching! I'm here in Mexico. I got deported in 2010. My girls are in the USA. Please, let's keep families together. I believe it is going to be done this year. Stop deporting moms or dads.”

“Give us a chance. We do no harm, and we may not be perfect nor some of us know English, but we want to try and learn. God made us equal. It doesn’t matter what race we are. We are human.”

“This year, a lot of things will get done like never before. The time is now, I believe that most of us will have the blessed reform this country needs and the help of every family to prosper the dream we've been realizing since the years past. This reform will happen. Great job for fighting the good fight!”
