

Homelessness

Homelessness is all over the United States because of job loss throughout the years. It is even a bigger problem now since many fear that they are going to lose their job. Homeless people are exposed to many diseases. There are shelters that are taking in, and feeding these people. They show kindness. There are homeless people who probably don't even know about the shelters because they're too busy trying to keep themselves alive.

Homeless people are not all adults. Some of them are teenagers who have run away from home. Many people are in the streets because their house was taken away. People can show kindness by giving at least one thing to show that they care. Homelessness can be prevented by gathering up people to help build shelters. We can help them get a job.
