Homelessness

As we all know, there are a lot of homeless people. How sad. We should do something to fix this. We have to do something about it. We cannot let these poor innocent people live in such a cruel world. They didn't want to be homeless. What if one of these homeless people were one of your family members. How would you feel? Not so good, right? I don't think the homeless feel so good either.

The population of the homeless is increasing. There are about 8,000 homeless people in Houston. That's a lot! Imagine all the homeless people in America? We need to do something about this. It's not only adults. There are also kids that are homeless. We need to stand up, and help all these people.

Homelessness is caused because people lose their shelter. Others because they don't have a job. Maybe even because they didn't have the money to pay for college and study. How sad is that? Imagine you not having money for college and being homeless. That's why we should go out to the streets, and give the poor food, blankets and whatever comes in handy for them.

Being homeless has to be the worst of the worst. I can't really imagine how it feels to sleep under a bridge without a blanket or anything. I wouldn't like to be one of them. It would be terrible. We have a good life, and we should not just sit here without helping these people who are also God's children.

Whoever is reading this, think about something we can do to help the needy. Every time we see homeless people, give them money. This can help. They can buy a bottle of water to enjoy and drink. They have a right to be free, and have a good life.There should be a day every year when people give the stuff they don't need or use anymore to the poor. Whatever is given can help them out in some way.

God bless the homeless . We could end up like them. It is really sad how they have nothing to rely on every day. Everyone is created equal.
