

Homelessness

Today, we see homelessness everywhere. People become homeless for many reasons, but it is mostly because of economic problems. What should we do to stop homelessness? We should start by giving them shelter, new things to wear and something to eat to make a difference in the community. There wouldn't be homeless people anymore. They wouldn't have to suffer from very hot and cold weather. They would have food to eat, and they would be happier.

Who is homeless and why? According to research, in the United States: more than 3.5 million people experience homelessness each year; 35% of the homeless population is families with children; 23% are U.S. military veterans; 25% are children under the age of 18 years; 30% have experienced domestic violence; 20-25% suffers from mental illness. We should make a difference in this world. We should help all the homeless people, and give them food and shelter.
