

# **Lunar Sample Laboratory Facility Building 31 (NASA)**

EC

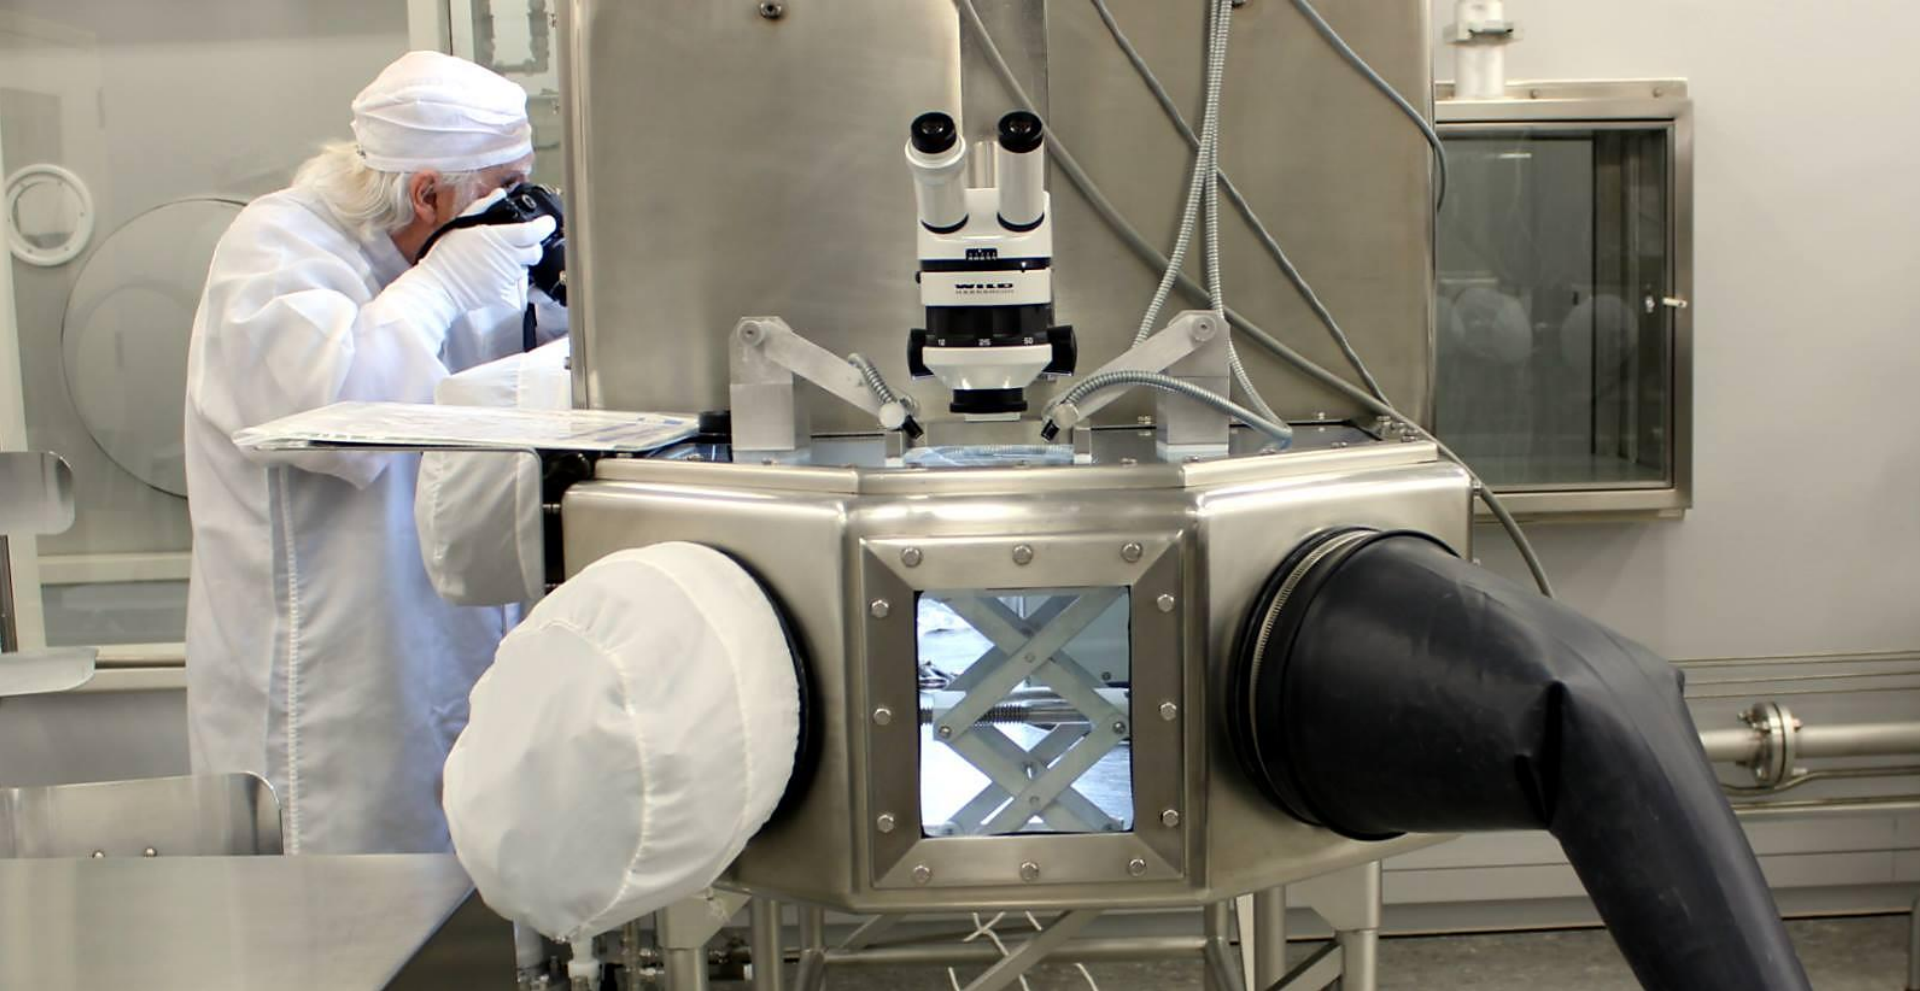

**Andrea Mosie, Lunar Sample Laboratory Facility manager is showing me one of the Lunar rock samples which is bagged and housed in a containment cabinet to prevent contamination. You'll notice we are wearing "bunny suits" to keep the area pristine.**

EC

**Dr. Dean Muirhead and I are listening to Andrea Mosie at one of the containment cabinets.**

EC

**I am seen taking a photograph of one of the Lunar samples in a containment cabinet to prevent contamination.**

TRC

**Lunar sample bagged and inside a containment cabinet at the Lunar Sample Laboratory Facility.**

**Andrea Moise indicates records kept for Lunar rock sampling/analysis.**

TRC

**Andrea Moise talks with my wife, Eunmi Cho.**

TRC

**My wife, Eunmi Cho views a Lunar sample through a microscope in the Lunar Sample Laboratory Facility.**

TRC

**Lunar sample bagged and inside a containment cabinet at the Lunar Sample Laboratory Facility.**

TRC

**I am holding a Lunar sample - bagged to prevent contamination - in my hand.**

TRC

**Andrea Moise works with the combination to the vault to the Lunar samples that have been returned after examination worldwide.**

TRC

**Andrea Moise indicates the Lunar samples from the various Apollo missions in the Returned Samples vault area.**

TRC

**The Lunar samples from the various Apollo missions in the Returned Samples vault area.**

This is a portion of a lunar sample  
returned by Apollo 17 Astronauts  
who traveled to the moon  
in December 1972.

TRC

**I am holding an encased Lunar sample in the Returned Samples vault area.**

TRC

**Slides of Lunar samples from the various Apollo missions in the Returned Samples vault area.**

TRC

**Part of my "bunny suit" to keep the area pristine.**
