What is Teacher Spotlight?

ePals Teacher Spotlight recognizes teachers who engage their students in great projects and share both the projects and student work with the ePals community. Sharing great projects enriches the entire community. Teachers whose projects are rated most highly by the community will be eligible for the Casey Global Education Award.

Featured Project

NASA MMS 2014 Mission and Space Weather Digital Art Student Workshops and "Challenge Summit"

- **Submitted by:** Tom R. Chambers, Raul Yzaguirre School for Success (RYSS), Houston, TX (United States)
- **Partners:** Jennifer Miller, Dublin Independent School District, Dublin, TX; Sandra Wozniak, New Jersey (United States)
- **Project Type:** Collaborative
- **Student Ages:** 5th, 6th, 7th, 8th

Description:

Tom R. Chambers' eighth grade students from Raul Yzaguirre School for Success (RYSS) (Houston, TX) traveled to Dublin Middle and Primary Schools (Dublin, TX) to mentor fifth, sixth, seventh and eighth grade students in the use of graphics software to create digital art re: NASA MMS 2014 Mission and Space Weather. The workshops concluded with a "Challenge Summit".
