

## Homelessness

Homelessness is very painful. I know that some people just act like if they are homeless. Some people don't lie, they actually tell the truth. They need help. Homelessness starts by some type of problem in the house or work.

Some end up dead or get help with their issues.

## Homelessness

Homelessness is when a person doesn't have any money and a home.

## *How does homelessness start?*

There are many reasons why people become homeless. These include loss of employment, divorce, long-term illness. Others include domestic violence, substance abuse, institutional discharge and many other factors that make it difficult, if not impossible, for people to pay rent or make mortgage payments. Factors that contribute to homelessness include lack of affordable housing, lack of preventative services to keep people from losing their housing, and inadequate treatment programs for those suffering from substance abuse and mental illness. Can you imagine working two jobs and still not being able to afford housing?

## *How does it feel to be homeless?*

Feeling homeless can be a crummy feeling. You feel like no one cares for you. And they can't help you. It feels awful and sleeping rough on the ground. If you're young, you should be partying with your friends in college or whatever the case. The rest of your life will never be the same again because depending on how far away from family you are and how cold it is outside you will never forgive the world for this unforgivable experience. If you are young, you will forget about religion, you will forget about family, but you won't forget about God because if you survive, you will be a living testament that the world has no love for anybody and the only person that loves you is God.

## *How can you end up?*

If you are in a good place you can get help and try to do the best in your life. Some people just keep doing drugs and doing what they have been doing. That is just a bad idea. If they don't get help fast they can either die or be a bad person. I'm sure you don't want to end up like that, or want them to end up. I really think it is sad to see them like that.
