

# Summary

Homelessness is the cause of a lot of people getting into drugs or having a bad future. Homeless people are not eating because they don't have money to buy food. We can help the homeless by taking them to a safe shelter that will help them have a better future. Even dogs can be homeless. There can be a lot of ways that you can be homeless, but the main reason is no job or can't afford a house to live in. Also dogs can be homeless because the owner of the dog doesn't want it.

## What is homelessness?

Homelessness is when people don't have a house or they can't afford one. Also homelessness is when you don't have a family or nobody helps you. Also you cannot afford medication, and you can get health problems. The man at the bottom is trying to get people to help him because he cannot help himself to survive in this world.

## What causes homelessness?

There are many ways that you can become homeless. One of the ways is that you are a single man or woman and are desperate. Another way that you can become homeless is because you have a big family and children, and can't pay for everyone.

## How can we prevent homelessness?

There are a lot of ways that you can stop homelessness. You can join a shelter and take the homeless man to the shelter and it will help him a lot. We also help them because they can still have a better future. Also you can help the homeless people because they might have come from war and they can't get a job or have mental problems from war. We need to help them.
