► Stop homelessness

Homelessness is bad, and it should be taken seriously. This could be you.

People need to donate to the poor to be "a good person", and give him a dollar so he can eat.

Most of the homeless people are drop-outs or runaway kids in their teens.

The main reason people drop out is because getting an education is hard. No education means no job.

Also people that go to the military and retire can become homeless.

Build a home

You can build a house as a volunteer. It's a great way to help house the homeless. All you have to do is come and build. There are many ways to find out where you can help: the Internet, the newspaper, people at your job who volunteer.

Make Food

If you don't want to go and make a home you can go to your house and make food. Take one day out of your week to feed the homeless. You can make them a burger or pizza, coffee whatever you want. It is your decision, but make sure you don't give them too much because you wouldn't have enough for the others. Always try to give them the right amount so you can give to others somewhere else or for stray pets.

Homeless Pets

If you don't want to help homeless people then help homeless pets. Maybe you can get a homeless dog or cat and give it to a adopting hospital. Sometimes there are shelters that take cats or dogs in, give them free health care and protect them until a adopter comes and scoops him or her up. Maybe you don't want to do that maybe you want to keep the dog that's ok. You always have to promise yourself that you're never ever giving up on a dog or cat. If you got the dog from the streets and you give up on it you will probably let it roam the streets. Don't do that because it will feel like if you just passed up the dog.
